### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shawn Cage (Reg. No. 51,522) on 05/18/2010.

The application has been amended as follows: at the end of claim 1, before the period, add "wherein the metallic carbide layer has a thickness in the range of 0.1 micrometers to 1.0 micrometers."

In claim 3, delete "and/or the carbide layer".

At the end of claim 7, before the period, insert "and greater than 0.1 micrometers."

At the end of claim 13, before the period, add "wherein the metallic carbide layer has a thickness in the range of 0.1 micrometers to 1.0 micrometers."

At the end of claim 16, before the period, add "wherein the metallic carbide-forming layer has a thickness in the range of 0.1 micrometers to 1.0 micrometers."

In claim 20, delete "and/or the carbide layer".

2. The following is an examiner's statement of reasons for allowance: As the applicant pointed out in the reply filed 02/23/2010, Sussman teaches a diamond film

Art Unit: 2881

with a thickness from 5 microns to 3000 microns, which does not overlap or encompass the claimed range of 0.1 micrometers to 1.0 micrometers.

3. The prior art teaches away from the carbide layer having a thickness in the range of 0.1-1.0 micrometers. U.S. Patent Application Publication 2001/0024737 teaches that if an interlayer in an amorphous carbon coated article has a thickness greater than 10 nanometers, it ceases to be capable of performing its intended function of adhesion between the layers (paragraph 0012). One of ordinary skill in the art would not find it obvious to modify Sussman's teachings to give the carbide layer a thickness in the range of 0.1-1.0 micrometers because the knowledge of one of ordinary skill in the art contained the belief that the layers would no longer remain adhered, and the article would essentially fall apart.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL MASKELL whose telephone number is (571)270-3210. The examiner can normally be reached on Monday-Friday 8AM-5PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim can be reached on 571/272-2293. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
